WORK EXPERIENCE

Keem The Designer | Graphic Designer | 07/22 - Current
Keem The Designer is my Freelance Graphic Design business that I started after graduating college. My portfolio website has several case studies showing the different projects I completed for my clients in detail along with demonstrations of my understanding of different softwares.

Art League RI | Graphic Design Intern | 05/19 - 08/22
Created graphics for the "Below the Surface" and "S=P=A=C=E" art exhibits, and produced my logo branding concepts for the organizations rebranding project. Also helped set up some of the art exhibits and provide assistance at events.

Design Solutions Team | Graphic Designer | 09/21 - 04/22
Collaborated with other designers to help several clients both within and beyond the university establish their own custom brand. This consisted of arranging zoom meetings and designing rough sketches, prototyping, and packaging products.

Rhode Island Senate | Graphic Design Intern | 08/18 - 11/18
Collaborated with one other graphic design intern to help construct the RI State Accomplishments official booklet. I designed several page layouts and transferred all given information to them accordingly.

Cardi's Furniture | Customer Service Rep. | 06/17 - 01/21
Inbound / outbound call center scheduling deliveries and troubleshoot issues with orders and deliveries.
